Tunnels / National roads / Infrastructure plants			
Federal Roads Office (FEDRO)	Schwamendingen Lot 001	Energie, lighting and electrical installations	2018 - 2024
Federal Roads Office (FEDRO)	N01 Brünnen tunnel, Lot 001	Energie, ventilation system and electrical installations	2018 - 2019
Federal Roads Office (FEDRO)	N16 Tavannes - Bötzingenfeld	Energie, lighting and electrical installations	2018 - 2019
Federal Roads Office (FEDRO)	N03 Bözberg Lot 005 Energie	Renewal of the control system, switch cabinets and components	2017 - 2021
Federal Roads Office (FEDRO)	N06 RUTS Lot 12 Energie	Electrical cabling, switch cabinets	2017 - 2021
Federal Roads Office (FEDRO)	Murg-Walenstadt Lot 701	Electrical cabling, locking system	2017 - 2021
Federal Roads Office (FEDRO)	N06 RUTS Lot 31 ventilation system	Ventilation system and electrical installations	2017 - 2020
Federal Roads Office (FEDRO)	N06 RUTS Lot 21 BEL	Lighting and electrical installations	2017 - 2020
Federal Roads Office (FEDRO)	Basel East	Cable systems	2017 - 2019
Federal Roads Office (FEDRO)	N09 Gamsen Lot 002 guidance systems	Guidance systems	2017 - 2019
Federal Roads Office (FEDRO)	N09 Gamsen Lot 001 Energie	Energie, lighting and electrical installations	2017 - 2019
Federal Roads Office (FEDRO)	N01 VSC-Cossonay	Electrical cabling	2017 - 2018
Canton of Zurich - Building Department	K10 highway S22 power supply	Switch cabinets, power supply	2016 - 2020
Spital STS AG	Hospital of Thun	Electrical cabling, false bottoms	2016 - 2017
Federal Roads Office (FEDRO)	KomSys TGUB BR Energie	Energie, electrical installations	2016 - 2017
Federal Roads Office (FEDRO)	N09 Simplon Village Jordiguhittini	Renewal of the energy supply, lighting and electrical installations	2016 - 2017
Civil engineering inspectorate Canton of Bern	Spiezwiler Energie	Renewal of the energy supply	2016 - 2017
Civil engineering inspectorate Canton of Bern	Spiezwiler Signalisation	Renewal signalisation	2016 - 2017
Federal Roads Office (FEDRO)	N12 Joux des ponts	Energie, lighting and electrical installations	2016 - 2017
Civil engineering inspectorate Canton of Bern	N5 Biel Ostast Lot 1.25c Street lighting	Street lighting installations	2016 - 2017
Federal Roads Office (FEDRO)	N08 Interlaken lighting installations EH2	Renewal of lighting installations	2014 - 2017
Federal Roads Office (FEDRO)	N08 Interlaken ventilation system	Renewal of ventilation system	2014 - 2017
Federal Roads Office (FEDRO)	Belchen tunnel	Ventilation system	2010 - 2015
Tunnel du Grand-Saint-Bernard S.A.	Great St Bernard	Cable system	2016
Federal Roads Office (FEDRO)	Thörishaus	Renewal of lighting installations (LED)	2016
Civil engineering inspectorate Canton of Bern	N5 Biel East branch Lot 1.21	Tunnel lighting installations (LED)	2016
Civil engineering inspectorate Canton of Bern	N5 Biel East branch Lot 2.71	Electrical installations	2016
Civil engineering inspectorate Canton of Bern	N5 Biel East branch Lot 1.23	Evacuation lighting	2016
Civil engineering inspectorate Canton of Bern	N5 Biel East branch Lot 1.12	Electrical power supply	2016
Canton of Wallis	A9 Turtmann / Riedberg tunnel	Electrical installations	2016
Canton of Wallis	A9 Turtmann / Riedberg tunnel	Switchgears incl. Control systems	2016
Siemens Schweiz AG	Faoug Kerzers	Video / BMA / VTV	2016
Federal Roads Office (FEDRO)	Covered highway "Sonnenhof"	Renewal of lighting installations (LED)	2015 - 2016
Federal Roads Office (FEDRO)	N02 Belchen tunnel	Ventilation systems	2015 - 2016
Siemens Schweiz AG	Simmenfluh tunnel	Video / BMA / VTV	2015
Siemens Schweiz AG	Platta Sion tunnel	Video / BMA / VTV	2015
Canton of Wallis	A9 Bypass Visp, Lot L06649	Cable channel for utility lines and driving space for Eyholz-, Visp- and Vispertunnel	2013 - 2018

Canton of Wallis	A9 Bypass Visp, Lot L06638	Electromechanical systems for Eyholz-, Visp- and Vispertaltunnel	2013 - 2018
Federal Roads Office (FEDRO)	Belchen tunnel	Renewal of the energy supply	2014 - 2015
Federal Roads Office (FEDRO)	N02 Seelisberg tunnel	Control system	2014
Federal Roads Office (FEDRO)	N08 Interlaken; Rugen and Lütschinen tunnel	Lot EH1 energy supplies	2014
Federal Roads Office (FEDRO)	N08 Interlaken; Rugen and Lütschinen tunnel	Lot EH2 lighting installations	2014
Federal Roads Office (FEDRO)	N08 Interlaken; Rugen and Lütschinen tunnel	Lot EH3-2 ventilation system	2014
Federal Roads Office (FEDRO)	N08 Leissigen tunnel	Lot 3 airing, control system and waste-air	2014
Federal Roads Office (FEDRO)	Pieterlen Tunnel	Renewal of lighting installations (LED)	2014
Swiss Federal Railways	Bötzberg tunnel	Planning and execution of point heating unit	2014
Canton of Basel-Land	H18 Eggflue tunnel	Cable system	2014
Canton of Basel-Land	H18 Eggflue tunnel	Cable channels	2014
Canton of Basel-Land	Lange Heid tunnel	Industrial and Safety Equipments	2014
Swiss Federal Railways	Swiss Federal Railways operations center, Olten	300 switch cabinets for power distribution	2013 - 2014
ABB Schweiz AG	ICF Wildegg	Electrical installation for heat recovery plant	2013
Kraftwerke Linth-Limmern AG	Lot D3 Smoke extraction systems	Smoke extraction systems (in case of fire)	2012 - 2014
Federal Roads Office (FEDRO)	A9 Simplon KaKuJo Lot 5	Cabling, switch cabinets, video, communication, etc.	2012 - 2013
Federal Roads Office (FEDRO)	MSRL Ventilation Milchbuck tunnel	Airing and ventilation control systems	2012 - 2013
Civil engineering inspectorate Canton of Aargau	N20/N4 Lieli tunnel - Bibenlos tunnel	LWL Cable system	2012
ABB Schweiz AG	Gotthard base tunnel	Cable system for the ventilation	2011 - 2016
Canton of Wallis	Stäggijtschugge tunnel	Airing and ventilation control systems	2011 - 2015
"Zentralbahn" Lucerne	Double-track railway and lowering	Equipment (General contractor): Entire electrical installation, 50 Hz systems, cable systems, switch cabinets, control unit, automation. Extension of stops and technical rooms Tunnel ventilation systems Emergency systems, extinguishing systems	2011 - 2013
Federal Roads Office (FEDRO)	Belchen tunnel	Airing and ventilation control systems	2011 - 2012
Federal Roads Office (FEDRO)	N01/40 Milchbuck tunnel	Earthing system	2011 - 2012
Civil engineering inspectorate City of Zurich	Ulmsberg tunnel	Cable channel Optical lines tunnel Heating traffic area Disposal of eternit channel	2011 - 2012
ABB Schweiz AG	Holcim Kies und Beton AG Cement plant Untervaz (GR)	Entire electrical installation	2011 - 2012
Federal Roads Office (FEDRO)	Ring Road Bern	Electrical power supply and lighting system	2011 - 2012
Federal Roads Office (FEDRO)	A9 Casermetta tunnel (VS)	Tunnel lighting	2011
Siemens Switzerland Ltd., Root	A2 Cityring Lucerne	Fire detection and fibrolaser installation Reussport and Sonnenberg tunnel	2011
Canton of Basel-Land	H 18 Reinach tunnel	Electrical installations, cabling	2011
Canton of Basel-Land	H 18 Eggflue tunnel	Escape direction signs / Optical guide device	2011

Federal Roads Office (FEDRO)	N20.1.2 Gubrist tunnel	Renewal of operation and safety installations	2010 - 2013
Canton of Aargau	B-106 Horental tunnel	Electromechanics	2010
Federal Roads Office (FEDRO)	A2 Noise protection gallery Stansstad	Electricity installations, cabling	2010
Civil engineering inspectorate Canton of Bern	Bypass Saanen	Electromechanics	2010
Federal Roads Office (FEDRO)	Belchen tunnel	Electrical installations	2009
Siemens Schweiz Industry Sector Building Technologies, Volketswil (ZH)	Gotthard road tunnel	Renewal of Fibrolaser (night work)	2009
AlpTransit Gotthard Ltd.	Gotthard base tunnel	Airing and ventilation control systems	2008 - 2015
Civil engineering inspectorate Canton of Freiburg	H189 Bypass Bulle – La Tour-de-Trême	Airing and ventilation control systems	2008 - 2009
Armasuisse	Air force base of Emmen, Payern, Sion and Meiringen	Renewal of FO cabling	2008 - 2009
ABB / Gähler & Partner AG	Bötzberg tunnel	Changement of air flow measurement systems	2008
Civil engineering inspectorate Canton of St. Gallen	A1, St. Gallen	Cabeling of the traffic control system	2007 - 2009
Civil engineering inspectorate Canton of Aargau	Bypass Zufikon / Lieli tunnel	Electromechanics	2007 - 2008
Civil engineering inspectorate Canton of Solothurn	Gibelin tunnel	Electromechanics	2007 - 2008
Civil engineering inspectorate Canton of Zurich	N 1.9.2 Oberhausen - Aubrugg	Cabling of the traffic control system	2007
Civil engineering inspectorate Canton of Wallis	Stägjitschugge tunnel, Lot 335210	Lighting control systems	2007
Civil engineering inspectorate Canton of Wallis	Stägjitschugge tunnel, Lot 335211	Airing and ventilation control systems	2007
Civil engineering inspectorate Canton of Wallis	Stägjitschugge tunnel, Lot 335216	Delivery, installation and commissioning of the traffic control, including signals; the ventilation control, including sensor system as well as the lighting control, including connection to the cantonal control system	2007
Civil engineering inspectorate Canton of Aargau	NK 103 Bypass Aarburg	Electromechanics for tunnel "Paradiesli"	2007
Civil engineering inspectorate Canton of Uri	Gotthard road tunnel	Airing and ventilation control systems	2007
Civil engineering inspectorate Canton of Bern	Raimeux tunnel	Cabling of the ventilation	2007
SMDK Kölliken	hazardous waste disposal site of Kölliken	Planning of 16kV transformer stations, low-voltage current, main and subdistribution of electricity, Lighting systems, high- and low-voltage current systems, control and visualisation of processing plants, video surveillances, material management systems, electronic data processing systems, communication and security installations	2006 - 2007
Armasuisse	Air force base of Emmen and Alpnach	Renewal of FO cabling	2006 - 2007
Civil engineering inspectorate Canton of Graubünden	San Bernardino tunnel	Renewal of high and low-voltage current installations for piping channel West	2005 - 2007
BLS AlpTransit AG, Thun	Lötschberg base tunnel	Planning and implementation of current supply for the equipment period (16kV/440V transformer stations 60 pcs, current distributors 200 pcs, lighting 80 km, control systems, visualisation, alarming)	2003 - 2007
BLS AlpTransit AG, Thun	Lötschberg base tunnel	Planning and implementation of mechanical and electromechanical equipments (ventilation systems, doors and gates, signals, etc.)	2002 - 2007
Civil engineering inspectorate Canton of Baselland	Arisdorf tunnel	Renewal of low-voltage current, main and subdistribution of electricity in the operating central station North and cross cut 2, including control and connection to the information/command system	2005
Civil engineering inspectorate Canton of Bern	Improvement of tunnel security N1/N5/N16 Canton of Bern	Supply, assembly and put into service a lighting in Alchenflüh and Taubenloch (1+2, D32) tunnels	2005

Marti Tunnelbau AG, Bern	Factory of tubing segment formworks in Balsthal	Planning and implementation of 16kV transformer stations, main and subdistribution of electricity, Lighting systems, high- and low-voltage current systems, control and visualisation of production of tubing segment formworks, video surveillances, material management systems, electronic data processing systems, communication and security installations	2002
Groupement Tunnel de Moutier	Moutier tunnel	Planning and implementation of 16kV transformer stations, low-voltage current, main and subdistribution of electricity, control and visualisation of tunnel conveyor belt systems, video surveillances, material management systems, electronic data processing systems, communication and security installations	2002
MBW Mitholz AG, Wimmis	MBW Mitholz	Planning and implementation of 16kV transformer stations, low-voltage current, main and subdistribution of electricity, control and visualisation of tunnel conveyor belt systems, video surveillances, material management systems, electronic data processing systems, communication and security installations, hard- and software, SQL data base	1999 - 2002

Conveyor belt systems			
Salini Impregilo SpA	Conveyor belt system Tunnel Paris Metro, France	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2018 - 2019
STRABAG AG UK BRANCH	Conveyor belt system Tunnel York Potash, England	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2019 - 2019
ARGE Marti LBST	Conveyor belt system Tunnel Lötschberg, Switzerland	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2020 - 2019
PORR - SIX CONSTRUCT JV	Conveyor belt system Tunnel Stormwater, Dubai, VAE	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2021 - 2019
CPBJH JV	Conveyor belt system Tunnel West Gate, Melbourne, AU	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2022 - 2019
Nishimatsu	Conveyor belt system Tunnel Shonan, Japan	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2023 - 2019
ARGE Marti Gubrist	Conveyor belt system Tunnel Gubrist, Switzerland	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2017 - 2018
Kenny / Obayashi IV a JV	Conveyor belt system Tunnel Hartford, USA	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2017 - 2018
Brennero Tunnel Construction	Conveyor belt system Brenner Basis Tunnel, Italy	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2017 - 2018
Wayss und Freytag	Conveyor belt system Tunnel Eppenber, Switzerland	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2017
ARGE SBT 3.1 Grautschenhof	Conveyor belt system Grautschenhof Tunnel, Autriche	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2017 - 2018
Pavimental, Italien	Conveyor belt system Tunnel Santa Lucia, Italy	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2016 - 2017
Marti EPC Ltd	Conveyor belt system Tunnel Tamagawa, Japan	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2017 - 2018
Marti EPC Ltd	Conveyor belt system, China	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2017
Implenia Bau AG	Conveyor belt system Tunnel Bözberg, Switzerland	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2016 - 2017
Richi AG	Conveyor belt system, Jura Cement Wildegg, Switzerland	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2016 - 2017

Marti EPC Ltd	Conveyor belt system Yili L3, China	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2016 - 2017
Marti EPC Ltd	Conveyor belt system Yili L4, China	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2016 - 2017
Consorzio Stabile SIS	Conveyor belt system Tunnel Nodo di Palermo, Italy	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2016 - 2017
C.M.C. di Ravenna, Italien	Conveyor belt system Tunnel Metropolitana Catania, Italy	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2016 - 2017
Acciona Ghella JV	Conveyor belt system "Follo Line", Oslo	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2016 - 2017
ARGE Marti Eppenber	Conveyor belt system concrete plant Tunnel Eppenber, Switzerland	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2015 - 2017
Odebrecht Global S.A.	2 conveyor belt systems incl. Boosters, Metro Sao Paulo Line 6, Brazil	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2015 - 2016
ARGE Marti Belchen	Belchen tunnel, Switzerland	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2015 - 2016
Strabag AG Wien, Austria	Conveyor belt system Alto Maipo, Alfalfal; Chile	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2015 - 2016
Dragages Hong Kong Ltd.	Conveyor belt system incl. Booster Liantang Tunnel Hong Kong	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2015 - 2016
Ergon Consorzio Stabile	Conveyor belt system Passante di Firenze tunnel, Italy	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2015
ARGE Tulfes - Pfans	Conveyor belt system Ampass Extension, Austria	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2015
Guangzhou Herrenknecht China	Conveyor belt system Huaneng Roadtunnel Mainling	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2015
Porr Bau GmbH, Austria	Conveyor belt system incl. Booster Koralmtunnel KAT3; Austria	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2014
Dodin Champenen Bernard Toulouse Cedex, France	Conveyor belt system Metro Paris Line 12, France	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2014 - 2015
Strabag AG Vienna, Austria	Conveyor belt system incl. Booster Alto Maipo, Las Lajas, Chile	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2014 - 2015
Jäger Bau GmbH Schruns, Austria	Conveyor belt system Aposelemis Kreta, Greece	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2014 - 2015

Unal Akpınar İnsaat Sanayi, Turkey	Conveyor belt system Silvan Babakaya, Turkey	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2014 - 2015
ARGE Sisto Sachseln	Conveyor belt system Sachseln, Switzerland	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2014 - 2015
Consorzio Cociv Genova, Italy	Conveyor belt system Polcevera, Italien	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2014
Porr Bau GmbH, Austria	Conveyor belt system incl. Booster Tunnel Koralm KAT3, Austria	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2014
Marti Technics Ltd., Hong Kong	Elevator, Hong Kong	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2014
Marti IAV Solbakk DA c/o Marti Norge AS	Conveyor belt system Tunnel Solbakk, Norway	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, EDP system, installation of heavy-duty electrical supply)	2013 - 2015
ARGE ATCOST21	Conveyor belt system "Stuttgart 21", Germany	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2013 - 2014
SITALFA S.p.A.	Conveyor belt system Tunnel Fréjus, Italien	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2013 - 2014
SELI Canada Inc and SNC-Lavalin Constructors (Western) Inc	Conveyor belt system Tunnel Evergreen, Canada	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2013 - 2014
Empedocle 2 S.c.p.a. Sede legale	Conveyor belt system Tunnel Caltanissetta, Italy	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2013 - 2014
Venaus Società Consortile arl	Conveyor belt system Tunnel Maddalena, Italy	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2013 - 2014
S.E.L.I. S.p.a., Roma	Conveyor belt system Tunnel Scilla, Italiy	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2012 - 2013
Marti GmbH & Mitgesell.	Conveyor belt system Baerenwerk, Austria	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2012 - 2013
Consórcio AG-CCCC / Linha 5	Conveyor belt system Tunnel Metro Sao Paulo, Line 5 Lo 3, Brazil	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2012 - 2013
CM5 Linha 5 Lote 7	Conveyor belt system Tunnel Metro Sao Paulo, Line 5 Lot 7, Brazil	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, EDP system, installation of heavy-duty electrical supply)	2012 - 2013
Qinhuangdao Tianye Tolian	Conveyor belt system Tunnel Genale, Ethiopia	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, EDP system, installation of heavy-duty electrical supply)	2012 - 2013
Sinohydro Corporation Ltd.	Conveyor belt system Caco Codo, Ecuador	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, EDP system, installation of heavy-duty electrical supply)	2012 - 2013

ARGE Fensterstollen Ampass	Conveyor belt system Ampass, Austria	Planning and implementation of load and control cabinets, EDP system, electrical installations	2012
Consortium Brenner 2011	Conveyor belt system Brenner, Italy	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, Security and EDP system, installation of heavy-duty electrical supply)	2012
S.E.L.I. S.p.a., Roma	Conveyor belt system ULU Jelai, Malaysia	Retrofitting of existing plant with booster station	2012
HVDC Tunel AEIE	Conveyor belt system Inelfe, Spain	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2012
S.E.L.I. S.p.a., Roma	Conveyor belt system Florence, Italy	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2011 - 2012
TOTO S.p.A, Chieti	Conveyor belt system Sparvo, Italy	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2011 - 2012
GEIE-RAZEL-CMCRA-Tabellout	Conveyor belt system Algeria	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2011
Marti Tunnelbau AG	Conveyor belt system Choindez tunnel	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2011
ARGE Erkundungstollen	Conveyor belt system Kramer tunnel; Garmisch-Partenkirchen, Germany	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2011
Marti Tunnelbau AG	Conveyor belt system Milchbuck tunnel, Zurich	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2011
ARGE Koralmtunnel KAT2	Elevators, Austria	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2011
Design & Technic PTE Ltd, Singapore	Conveyor belt system	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2011
RAZEL, Modane (I)	Conveyor belt system Fréjus tunnel	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2010 - 2011
ARGE Kraftwerk Limmern	Conveyor belt system Tierfehd	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2010 - 2011
Design & Technic PTE Ltd, Singapore	Conveyor belt system HKS 357-2 (Hong Kong)	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2010 - 2011
Groupment Marti Implenla (GMI)	Conveyor belt system Nant de Drance	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2010 - 2011
Maeda - CREC - SELI JV, Hong Kong	Conveyor belt system Tsuen Wan Drainage	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2009 - 2011

C.M.C. di Ravenna, (I)	Conveyor belt system Theun Hinboun (Laos)	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2009 - 2011
ARGE Betonbau und Logistik	Conveyor belt system train station Zurich	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2009 - 2011
S.E.L.I. S.p.a., Roma (I)	Conveyor belt system Metro Teheran	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2009 - 2010
Dragages - Nishimatsu JV, Hong Kong	Conveyor belt system West Drainage	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2008 - 2010
ARGE Goler AG, Raron	Conveyor belt system Goler	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2009
ARGE Bibratunnel (D)	Conveyor belt system Bibra tunnel	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2008 - 2009
S.E.L.I. S.p.a., Roma (I)	Conveyor belt system Brenner base tunnel	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2008 - 2009
Frei Fördertechnik AG, Rubigen	Conveyor belt system for hazardous waste disposal site of Kölliken	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2007 - 2009
ARGE Haupttunnel Eyholz, Visp	Conveyor belt system Eyholz	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2008
Bluewater JV, John Holland Tunneling (AU)	Conveyor belt system Sydney	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2008
John Holland Tunneling (AU)	Elevator Melbourne	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2008
Ertan Hydropower Development Co. Ltd. (CN)	Conveyor belt system JinPing II, China	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2007 - 2008
Herrenknecht AG (D)	Conveyor belt system JinPing, China	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2007 - 2008
Groupement Tunnel de Bure (TUAG)	Conveyor belt system Bure tunnel	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2007
Bombela Civils Joint Venture (SA)	Conveyor belt system Gautrain, South Africa	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2007
TODINI Construzioni Generali (I)	Conveyor belt system Variante di Valico, Italy	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2007
Beton- und Monierbau, Innsbruck	Conveyor belt system Spillvattentunnel, Sweden	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2007

Gülermark Gogus, Istanbul (TR)	Conveyor belt system Bagcilar Casaksehir Metro tunnel Istanbul, Turkey	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2007
Dragages Civil Works, Hongkong	Conveyor belt system Castle Peak tunnel, China	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2007
Mancini & Marti SA, Bellinzona	Conveyor belt system in Lugano	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2006
HOCHTIEF Glendoe Joint Venture (UK)	Conveyor belt system Glendoe, Scotland	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2006
Marti Iberica (E)	Conveyor belt system Bracons tunnel, Spain	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2006
S.E.L.I. S.p.a., Roma (I)	Conveyor belt system Sao Paolo Metro tunnel, Brazil	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2006
CMC, STRABAG (I)	Conveyor belt system Venaus tunnel, Italy	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2006
Tunel del Perthus A.E.I.E. (E)	Conveyor belt system for Perthus tunnel, Spain	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2005
Skanska-Vinci HB (S)	Conveyor belt system for Halandsas tunnel, Sweden	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2005
ARGE Katzenbergtunnel (D)	Conveyor belt system for Katzenbergtunnel, Germany	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2004
ARGE IBT Islisbergtunnel	Conveyor belt system for Islisbergtunnel, Zurich	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2004
U.T.E San Pedro (S)	Conveyor belt system for San Pedro tunnel, Spain	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2004
Bouygues-Eiffage J.V. (F)	Conveyor belt system for Maurice Lemaire tunnel, France	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2004
AGN Amsteg	Conveyor belt system for Gotthard base tunnel/Amsteg	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2003
Consorzio G. M. Faido	Conveyor belt system for Gotthard base tunnel/Faido	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2003
Consorzio TAT, Pollegio	Crusher and conveyor belt system for Gotthard base tunnel/Bodio	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2003
ARGE Matrans Steg/Raron	Conveyor belt system, railway-loading shed for Lötschberg base tunnel/Steg	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2001

Groupement Tunnel de Moutier	Conveyor belt system for Moutier tunnel	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2001
ARGE Satco, Blausee-Mitholz	Conveyor belt system, railway-loading shed for Lötschberg base tunnel/Mitholz	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	2000
ARGE Ferden	Conveyor belt system for Lötschberg base tunnel/Ferden	Automation and electrical system (fully-automatic control of material flow, visualisation of conveyor belt system, installation of heavy-duty electrical supply)	1999

Gravel processing plants			
Simatec Maschinenbau AG	Screening plant, Brenner, Italy	Planning, implementation and commissioning, assembly of switchgear and controlgear, electricity installations	2019
Holcim Kies und Beton AG	Loading station, Kehrsiten	Planning, implementation and commissioning, assembly of switchgear and controlgear, electricity installations	2019
Groupement Marti Nations	Gravel processing plant, tunnel des Nations, Switzerland	Planning, implementation and commissioning, assembly of switchgear and controlgear, electricity installations	2018
Marti AG Solothurn	Renovation of the coating plant for the gravel processing plant Walliswil	Planning and implementation, main and subdistribution of electricity, electrical installations	2017 - 2018
Pirol AG Kiesaggregate	New low-voltage main distribution, gravel processing plant Ufhusen	Planning and implementation, main and subdistribution of electricity, electrical installations	2017
Simatec Maschinenbau AG	New outside classification system, gravel processing plant Walliswil	Planning and implementation, main and subdistribution of electricity, electrical installations	2017
ASE Technik AG	Extension of the conveyor belt system, Kies Lenz AG	Planning and implementation, main and subdistribution of electricity, electrical installations	2017
Marti AG Solothurn	New loading system incl. dosage, gravel processing plant Walliswil	Planning and implementation, main and subdistribution of electricity, electrical installations	2016 - 2017
Marti AG Solothurn	New water treatment plant, gravel processing plant Walliswil	Planning and implementation, main and subdistribution of electricity, electrical installations	2016 - 2017
KWG Kieswerk Gränichen AG	Water treatment plant	Planning and implementation, main and subdistribution of electricity, electrical installations	2015 - 2016
Kieswerk Albula AG	New gravel processing plant Albula	Planning and implementation, main and subdistribution of electricity, electrical installations	2015 - 2016
ARGE MBW Eppenbergr	New gravel processing plant Eppenbergr	Planning and implementation, main and subdistribution of electricity, electrical installations	2015 - 2016
Praz SA Holcim Kies und Beton AG, Zurich	Gravel processing plant Sierre	Planning and implementation, main and subdistribution of electricity, electrical installations	2015
ARGE MZ Hüningen, France	Chamber filter press	Planning and implementation, main and subdistribution of electricity, control and visualisation, electrical installations	2015
ARGE MZ Hueningen, France	Soil washing plant	Planning and implementation, main and subdistribution of electricity, control and visualisation, electrical installations	2014 - 2015
Marti AG Solothurn	Feeding unit for pre-washing unit in Walliswil	Planning and implementation, main and subdistribution of electricity, electrical installations	2014 - 2015
Marti AG Kiesaggregate	Water treatment and sludge dewatering plant	Planning and implementation, main and subdistribution of electricity, control and visualisation of water treatment and sludge dewatering plant, electrical installations	2014 - 2015
Marti AG Solothurn	Gravel processing plant Walliswil	Planning and implementation, main and subdistribution of electricity, control and visualisation of gravel processing plant, of dosage and loading, electrical installations	2013 - 2015
Consortium Tunnel de Champel	Gravel processing plant Champel	Planning and implementation, main and subdistribution of electricity, electrical installations	2013 - 2014
Holcim Kies und Beton AG, Zürich	Gravel processing plant Kirchbergr	Planning and implementation, main and subdistribution of electricity, electrical installations	2013
Holcim Kies und Beton AG, Zürich	Gravel processing plant Oberdorf	Planning and implementation, main and subdistribution of electricity, electrical installations	2013
Kies AG, Beringen	Grit side modification in Beringen	Modifying of Hard- and Software	2013
ARGE Koralmtunnel KAT2	Gravel processing plant Koralm, Austria	Planning and implementation, main and subdistribution of electricity, control and visualisation of gravel processing plant, of dosage and loading, electrical installations	2012 - 2013
GMI Groupement Marti Implenia	Open-air silo installation, Châtelard	Planning and implementation, main and subdistribution of electricity, electrical installations	2012 - 2013

Community of Lenzbourg	Gravel processing plant Lenzbourg	Planning and implementation, main and subdistribution of electricity, control and visualisation of gravel processing plant, of dosage and loading, electrical installations	2011
Marti AG Kiesaggregat	Gravel processing plant Ufhusen	Planning and implementation, main and subdistribution of electricity, control and visualisation of dosage and loading, electrical installations	2011
ARGE Kraftwerk Limmern	Gravel processing plant "Muttsee"	Planning and implementation, main and subdistribution of electricity, control and visualisation of gravel processing plant, of dosage and loading, electrical installations	2011
ARGE Kraftwerk Limmern	Gravel processing plant "Ochsenstäfel"	Planning and implementation, main and subdistribution of electricity, control and visualisation of gravel processing plant, of dosage and loading, electrical installations	2010
ARGE Marti Infra AG	Soil Washing Plant "Usine à Gaz"	Planning and implementation, main and subdistribution of electricity, control and visualisation of gravel processing plant, electrical installations	2010
Groupement Marti / Implenia	Gravel processing plant Trient	Planning and implementation, main and subdistribution of electricity, control and visualisation of gravel processing plant, of dosage and loading, electrical installations	2010
Marti AG Solothurn	Gravel processing plant Walliswil	Planning and implementation, main and subdistribution of electricity, control and visualisation of gravel processing plant, of dosage and loading, electrical installations	2009
Kies AG, Beringen	Gravel processing plant "Enge"	Planning and implementation, main and subdistribution of electricity, control and visualisation of gravel processing plant, of dosage and loading, electrical installations	2008
Vibeton Freiburg AG, Tentlingen	Gravel processing plant in St. Ursen	Planning and implementation, main and subdistribution of electricity, control and visualisation of gravel processing plant, of dosage and loading, electrical installations	2008
Steinbruch und Hartschotterwerk Blausee-Mitholz AG, Frutigen	Quarry in Frutigen	Planning and implementation, main and subdistribution of electricity, control and visualisation of silo installation, of dosage and loading, electrical installations	2008
Frei Fördertechnik AG, Rubigen	Quarry in Rüti	Planning and implementation, main and subdistribution of electricity, control and visualisation of conveyor belt system, video surveillances, electrical installations	2008
Kieswerk Arch AG, Arch	Gravel processing plant in Arch	Planning and implementation, main and subdistribution of electricity, control and visualisation of silo installation, of dosage and loading, electrical installations	2007
Frei Fördertechnik AG, Rubigen	Gravel processing plant in Sion	Planning and implementation, main and subdistribution of electricity, electricity installations	2008
Holcim Kies und Beton AG, Zurich	Gravel processing plant in Kirchberg	Planning and implementation of low-voltage current, main and subdistribution of electricity, control and visualisation of gravel processing plant, electrical installations	2008
Frei Fördertechnik AG, Rubigen	Gravel processing plant in Sierre (Holcim)	Planning and implementation of low-voltage current, main and subdistribution of electricity, control and visualisation of gravel processing plant, electrical installations	2006
Kieswerk Gunzgen AG, Gunzgen	Gravel processing plant in Gunzgen	Planning and implementation of low-voltage current, main and subdistribution of electricity, control and visualisation of gravel processing plant, electrical installations	2006
Holcim Kies und Beton AG, Zürich	Gravel processing plant in Oberdorf	Planning and implementation of low-voltage current, main and subdistribution of electricity, control and visualisation of gravel processing plant, electrical installations	2006

Kieswerk Untervaz AG, Untervaz	Gravel processing plant in Untervaz	Planning and implementation of low-voltage current, main and subdistribution of electricity, control and visualisation of gravel processing plant, electrical installations	2005
MBW Mitholz AG, Wimmis	Gravel processing plant "Steinigand"	Planning and implementation of low-voltage current, main and subdistribution of electricity, control and visualisation of gravel processing plant, electrical installations	2004
Balz Marti AG, Linthal	Gravel processing plant "Tierfehd"	Planning and implementation of 16kV transformer stations, low-voltage current, main and subdistribution of electricity, control and visualisation of gravel processing plant, video surveillances, material management systems, electronic data processing systems, communication and security installations, hard- and software, SQL data base	2004
Toggenburger AG, Winterthur	Gravel processing plant Wil	Planning and implementation of main and subdistribution of electricity, control and visualisation of gravel processing plant, high- and low-voltage current systems	2004
ARGE MBK Raron	Gravel processing plant "EYA" near Raron	Planning and implementation of 16kV transformer stations, low-voltage current, main and subdistribution of electricity, control and visualisation of gravel processing plant, video surveillances, material management systems, electronic data processing systems, communication and security installations, hard- and software, SQL data base	2001

Tunnelling machines			
ARGE Marti Gubrist	Roadheader	Renovation of roadheader	2018
ARGE Marti Belchen	Tunnel boring machine	Maintenance of Tunnel boring machine	2015
ARGE Sisto Sachseln	Tunnel boring machine	Electrical engineering (modification), electrical installation and commissioning	2014
Marti Contractors Ltd.	Raisedrill Nant de Drance	New Pump control system	2013
Renesco AG	Tubbing manipulator Snekkestad, Norway	Electrical engineering	2013
Marti Tunnelbau AG Marti GmbH & Mitgesell.	Tunnel boring machine "Bärenwerk", Austria	Maintenance of Tunnel boring machine	2013
Marti Contractors Ltd.	Raisedrill	Maintenance of Raisdrill	2012
ARGE Sisto Milchbuck	Tunnel boring machine	Electrical engineering, load and control cabinets, control and visualisation, data archiving, electrical installation and commissioning	2011
ARGE Kraftwerk Limmern	Tunnel boring machine inclined shaft	Electrical installation, commissioning	2011
Groupment Marti Implenia	Tunnel boring machine	Electrical engineering (modification), electrical installation and commissioning	2010
Plant engineering			
Marti Tunnelbau AG	Secondary distributions	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2018
Marti Tunnelbau AG	Ventilation control systems	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2018
Simatec Maschinenbau AG	Chamber filter presse KSB Maienfeld	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2018 - 2019
Simatec Maschinenbau AG	Water treatment plant Hofmair	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2019 - 2019
Simatec Maschinenbau AG	Chamber filter presse Hofmair	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2020 - 2019
Simatec Maschinenbau AG	Chamber filter presse Blöchlinger	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2021 - 2019
Simatec Maschinenbau AG	Chamber filter presse Balz Kamm	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2018
Simatec Maschinenbau AG	Chamber filter presse Oberndorfner	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2018
Simatec Maschinenbau AG	Chamber filter presse Lätti	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2018
Simatec Maschinenbau AG	Chamber filter presse Eppenbergr	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2017
Simatec Maschinenbau AG	Chamber filter presse Georg Müller	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2017
Simatec Maschinenbau AG	Primary crusher Grautschenhof	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2017 - 2018
Simatec Maschinenbau AG	Chamber filter presse PS Beton Munich	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2017
Simatec Maschinenbau AG	Chamber filter presse Dubai	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2017
Simatec Maschinenbau AG	New sludge dewatering SKG	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2017
Simatec Maschinenbau AG	Chamber filter presse SKG	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2017
Simatec Maschinenbau AG	Chamber filter presse Beringen	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2017

Simatec Maschinenbau AG	Chamber filter presse Grautschenhof	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2017
Marti Tunnelbau AG	Chamber filter presse, Klus-Balsthal	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2016
Simatec Maschinenbau AG	Chamber filter presse Dubai	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2016
Simatec Maschinenbau AG	Chamber filter presses, gravel plant Walliswil	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2016 - 2017
Simatec Maschinenbau AG	Chamber filter presse Bauma	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2016
Simatec Maschinenbau AG	Chamber filter presse Belchen	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2016
Marti Tunnelbau AG	Lighting and video surveillance Area MBC	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2016 - 2017
ARGE Marti Tunnel Rosenstein	Chamber filter presse	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2015
Consortium Tunnel de Champel	Chamber filter presse Sludge Dewatering	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2015
Marti IAV Solbakk DA c/o Marti Norge AS	Generator circuit breaker	Planning and implementation of generator circuit breaker for emergency power supply	2015
Marti IAV Solbakk DA c/o Marti Norge AS	Frequency converter for ventilation 110kW	Planning and implementation of ventilation control system	2015
Marti Norge SA	Ventilation control system	Planning and implementation of ventilation control system	2015
Marti Tunnelbau AG	Ventilation control system	Planning and implementation, main and subdistribution of electricity, control and visualisation	2015
Marti Tübbingwerk AG	Renovation of circulation plant for tubbing fabrication	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2015
ARGE MZ Hueningen, France	Dismantling purification	Planning and implementation of load and control cabinets, EDP and telephone systems, video surveillance, airlock control system and dockingstations, electrical installations and start-up, maintenance	2014 - 2017
Consortium Tunnel de Champel	Transfer bridges Tunnel de Champel, Geneva	Planning and implementation, main and subdistribution of electricity, control and visualisation, electricity installations	2014 - 2015
ARGE SMDK Infra-Kölliken	Renovation / Service	Renovation / Service of lighting and several installations	2014 - 2017
Marti IAV Solbakk DA c/o Marti Norge AS	Safety equipment Tunnel Solbakk, Norway	Planning and implementation of ventilation control system	2013 - 2016
Marti AG Solothurn	Electrical system Plant Walliswil	Electrical equipment for EDP center and administration building	2013 - 2015
Marti AG Solothurn	Site power supply Plant Walliswil	Site power supply, adjustment existing installations	2013
ARGE MZE Monthey	Deponie Pont Rouge	Planning and implementation of load and control cabinets, EDP and telephone systems, video surveillance, airlock control system and dockingstations, electrical installations and start-up, maintenance	2012 - 2014
Groupement DI Bonfol	Dockingstation, DI Bonfol	Planning and implementation of load and control cabinets, electrical installations	2011
Emil Gisler AG	Mobile crushing and sieving unit, ARGE Kraftwerk Limmern	Planning and implementation of load and control cabinets, electrical installations	2011
Arge Marti Coburg Ost	Sealing carriages (formwork construction); Rennberg Feuerfelsen, Germany	Planning and implementation of main distribution, control and visualisation of plant incl. data archiving, electrical installations	2011

ARGE Kraftwerk Limmern	Loading and discharge station (cable-car)	Planning and implementation of main distribution, control and visualisation of plant, electrical installations	2010
Marti AG Bern	Mobile concrete plant	Planning and implementation of main distribution, control and visualisation of plant, electrical installations	2010
